HEART VALVE REPLACEMENT/
CORONARY BYPASS

Ingredients

- Pig heart
- Basin
- Cover with circular opening in the middle, approximately 15 cm with holders for sutures (St. Jude’s)
- Spikes
- Scotch tape
Steps

1. Place cover on top of basin
   - Secure it with Scotch tape

2. Position pig heart over the hole and secure with spike
   - Position the heart sideways for coronary bypass surgery
   - Position the heart hanging down for heart valve replacement
3. Secure spikes to the holder
